## **ISBA WhatsApp Guidance**

The ISBA (The Independent Schools Bursars' Association) have just issued their first major Guidance For Schools on how to approach parent WhatsApp groups.

Independent legal advisors Farrer & Co and Classlist provided input. Advice is private to ISBA members but includes:

**Risks arising from WhatsApp groups, including inclusivity problems and potential legal / GDPR liabilities for parent administrators and schools**

**How to communicate risks to parents, set clear behaviour standards, manage sharing of school material, upgrade parent contracts**

**How alternative platforms can help. Classlist is highlighted as a tailored, specialist product enabling schools to build inclusive, moderated communities**

Please join our upcoming webinar sessions at [www.classlist.com](http://www.classlist.com) or contact [toby@classlist.com](mailto:toby@classlist.com) (+44 7557130 541) to learn more. We can review the Guidance in detail with ISBA member schools and give general advice to others.
